VISION

To become the leading equipment hiring company in the region and subsequently the world, operating in most countries and providing the widest range of modern equipment and related services through our own branches and through franchised operation.

MISSION

Quality Equipment Hire

QUALITY POLICY:

Mister Machine upholds Quality among its organizational primary values and is strictly committed to apply these business values:

Client Satisfaction:

achieving client satisfaction through the combined effort of planning, resource management, quality of service and feedback from our client.

Quality Services:

Fully committed to provide reliable and durable services in a timely, safe and convenient manner as per our client requirements, as well as, providing highest performance and most reliable equipment.

Modern Equipment and Services: offering modern equipment fleet of latest models and utilize the latest information technology system to better serve our clients.

Competitive Hire Rates:

offering competitive rates that match the value for money.

Adherence to a Quality Management System:

Strict adherence to the Quality Management System at all times by continually monitoring the implementation of the system with the view of continually improving it.

Adherence to Legal Requirements:

Strict adherence to the local regulatory and statutory requirements governing Quality.

Professional Staff:

Ensuring that all our staff and personnel are well trained, disciplined and motivated, along with experienced top management who are competent in the fields of our services.

Availing Effective Resources:

Ensure availability of adequate resources, effective communication and awareness or training to employees, clients, and suppliers on Quality.

About the Company

In 2012, due to Bahrain market limitation Mister Machine entered the Saudi Market under commercial registration name "Awal Equipment Hiring". Mister Machine B.S.C.C currently has 7 Commercial Registrations in Bahrain and one additional commercial registration in Kingdom of Saudi Arabia under name of Awal Equipment Hiring Company for the following business activities:

- 1) ACCESS PLATFORM DIVISION
- 2) GENERATORS & COMPRESSORS DIVISION
- 3) HEAVY EQUIPMENT DIVISION
- 4) PORTACABINS DIVISION
- 5) TRANSPORTATION & LOGISTICS DIVISION
- 6) WELDING EQUIPMENT
- 7) OILFIELD EQUIPMENT
- 8) QUALITY USED EQUIPMENT FOR SALE DIVISION

And now the company annual Turnover is in excess of 13 million US Dollars.

The company has gained a wealth of valuable experience in the equipment hiring business and has become the leading equipment hiring company in the kingdom of Bahrain.

Rental Management Solutions

About the Software

The company has developed its own IT system to support its operations. The system is under continuous development by our own team of IT professionals.

iHire Software is a comprehensive system which was developed in-house by a team of professionals over a number of years. The expertise of the hiring industry was meticulously incorporated into this system in such a way that it handles all the practical aspects of hiring in a systematic workflow manner and guarantees proper interactions between the different stages of the hiring process.

The 24 years of solid experience accumulated by Abu Amer Equipment Hiring Company and its new international brand Mister Machine was fully incorporated into iHire Software.

Safety & Environmental Procedures:

Mister Machine is a company taking environmental responsibility issues seriously. As a company engaged in hiring of equipment, we recognize our important role in taking good care of our environment and our planet's resources. We stand to this commitment and responsibility.

For this purpose, we make sure that all the machines and equipment we are hiring are brand new and/or certified by companies that they are in compliance to the latest environmental standards.

We adhere to all of countries' environment and Pollution Policies. Furthermore, we make sure that our employees' are well-informed, trained and compliance to all the safety and environment procedures that our company is putting into action.

Market and Clients

MISTER MACHINE has a large number of customers in Bahrain and in the GCC countries which include industrial organizations, government ministries, building contractors, banks and individuals.

The one industry that can be counted on to grow significantly for the short-term is the contractor commercial construction industry.

The housing boom of the past five years has produced annual growth rates ranging from %10-5. In evaluating our total market we plan to concentrate on this industry as our primary target market.

The nature of the hiring industry market is that demand can sometimes be seasonal and tends to fluctuate.

However, because MISTER MACHINE has a wide range of equipment, the effect of the decrease in seasonal demands on some equipment is counteracted by the growth in the demand on other equipment.
